

Towel Cozy™

Usage Instructions

Activating the Towel Cozy

1. Snap the metal disc situated inside the Towel Cozy heat pack back and forth once.

2. The liquid inside the Towel Cozy will now change into a warm gel.

3. Once all the liquid is transformed into gel the Towel Cozy is now ready to use.

4. Wrap the Towel Cozy up inside your towel.

5. The Towel Cozy will stay warm for up to an hour wrapped inside a towel placed inside The Storage Bag.

6. When you remove the Towel Cozy from the towel fold it in half as soon as possible.

7. The Towel Cozy will gradually cool down and the warm gel will turn into hardened cold crystals.

KEEP AWAY FROM SHARP OBJECTS

8. Take care not to damage or puncture the Towel Cozy.

Towel Cozy™

To reset the Towel Cozy

1. Place the folded Towel Cozy inside The Boil Bag.

2. Place the Boil Bag inside a large pan on your stove.

3. Cover the Boil Bag with hot water and bring to the boil - **Be extremely careful when dealing with boiling water.**

4. Boil on a high heat for 20 minutes. This will liquefy the crystals.

5. Carefully remove the Boil Bag from the water, draining any water that has collected inside the Boil Bag.

6. Carefully remove the Towel Cozy from the Boil Bag.

7. Hold the Towel Cozy up to light - Check carefully that no crystals remain.

8. Unfold and place the Towel Cozy on a flat cool surface and leave to return to room temperature.

Once at room temperature the Towel Cozy is now ready to be used again

Note

- As the crystals liquefy the shape of the product adjusts to that of the container in which it has been placed thus facilitating the process
- If the crystals are not all completely liquefied after the boiling process they **WILL** re-activate automatically
- Should this happen repeat the boiling process in steps 1 to 8 above

LIABILITY

We accept no responsibility for any damage caused (even to third parties) resulting from the improper use of the Towel Cozy.

Contents of Gel: Sodium Acetate

Warnings and Precautions

- **DO NOT** place the Towel Cozy in a microwave oven - **The activator is metallic**
- The product will be hot after boiling
- Take appropriate precautionary measures when handling hot objects and liquids
- Ensure you wear gloves when handling boiling water
- **DO NOT** pierce the pack
- For external use only
- Keep out of reach of children
- **DO NOT** attempt to eat or swallow
- In the event of leakage, any affected items should be thoroughly rinsed in warm water
